

The Skills of the Huguenots - Gardens

What is a garden?

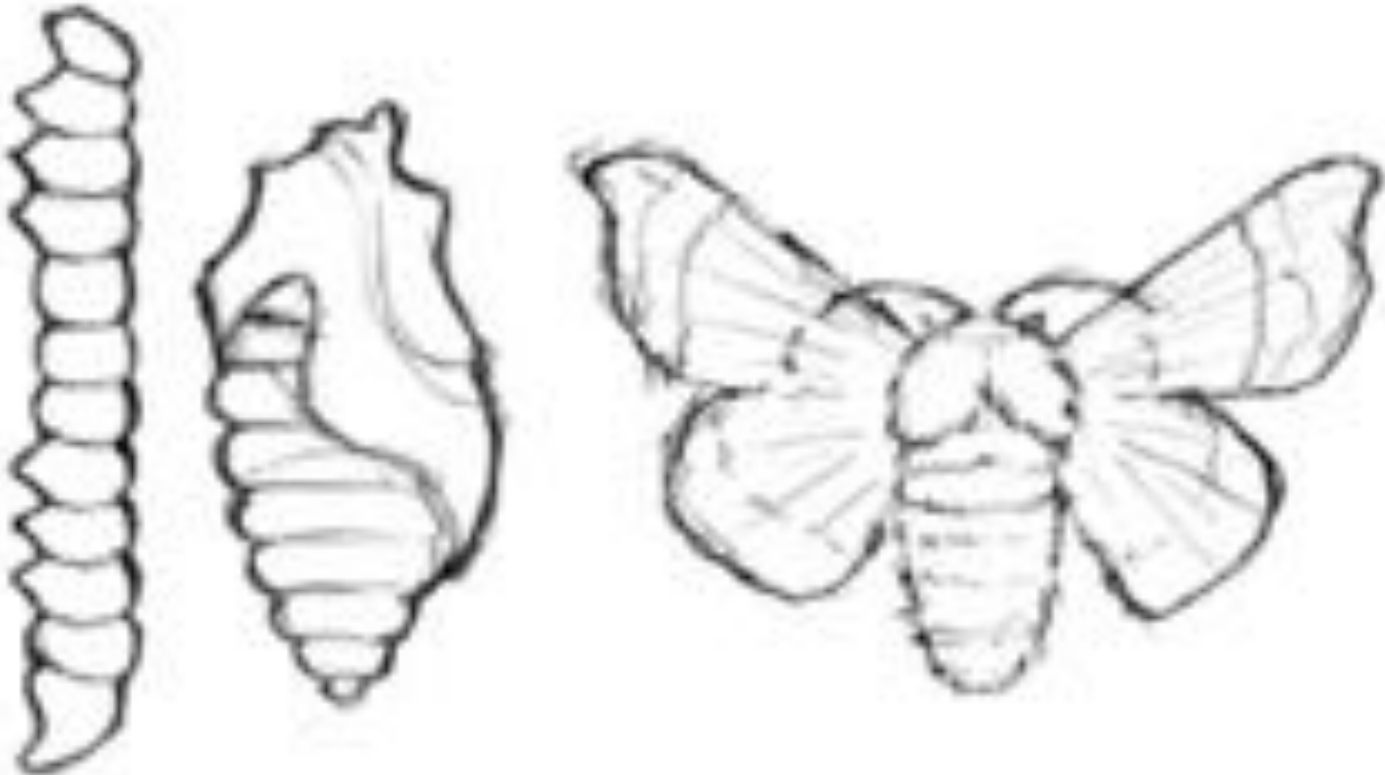

A close-up photograph of two small green seedlings growing in a terrarium. The seedlings have several bright green leaves and thin stems. They are growing out of a layer of soil and moss. The background is softly blurred, showing more greenery.

Life Cycle of a Silk Worm

Silk Worms

- Silk thread is produced from the cocoons made by the larvae of the silk worm moth.
- The cocoon is made from a single continuous thread of up to 900m long.
- Cocoons were placed into boiling water making the cocoon easy to unravel.

Who were the Huguenots?

- Christians
- French Protestants
- Persecuted (bullied)
- Emigrated
- Immigrated
- Refugees
- Settled

The Huguenots **TRANSFORMED** England

HUGUENOT WEAVERS

The Fanshawe Dress and Flowers

A close-up photograph of a honeybee on a yellow flower. The bee is positioned on the left side of the frame, facing right towards the flower. The flower is bright yellow and has several petals. The background is a soft, out-of-focus yellow, suggesting a field of similar flowers. The sky is a clear, light blue. The text "Flowers and Parts of a Flower" is overlaid in white, sans-serif font across the middle of the image.

Flowers and Parts of a Flower

Pattern Design

Probably the best known and striking of the jobs. They painted designs on graph paper for the loom mounters (draw loom) or the card cutters (jacquard looms)
